MODULAR PHARMACEUTICAL VAULTS

The VSA modular pharmaceutical vault is designed to meet all the requirements for the storage of schedule 8 drugs in all states of Australia exceeding AS/NZ 3809 Grade VII in all three panel types, the AEGVS concrete panel, Vision lightweight panel and the Hercvlite lightweight concrete panel. Our vaults come in a range of different lengths and widths ranging from 1.8m to over 20m.

Our ceiling heights can range from 2.4m up to 9m. Our vaults are able to clear span over 13m, eliminating any need for internal support posts. Our lightweight panels are advantageous when building in an existing warehouse as it can eliminate the need to add any footings or do any subfloor works.

VSA can also build these vaults in operational pharmaceutical warehouses only using battery powered equipment eliminating any vehicle fumes or dust that may affect the operation of the existing facility. Our vaults are secured by our Thor III doors.

VSA can offer a turnkey solution including
Engineering for:
Floor loading
HVAC air flow
Structural requirements

Penetrations for:
Sprinkler
Air flow
Electrical and data

Services:
Electrical and data
Caged packing areas
Lighting
Pallet racking solutions
Sprinkler systems

THOR III DOOR

SECURE CONSTRUCTION

Because of its special construction, the Thor III Vault Door weighs considerably less than a steel slab door. It can be installed in locations where weight constrictions limit installation. Construction includes special grade steel and high strength concrete.

The VSA Thor III door is designed to meet all requirements for the storage of schedule 8 drugs in all states of Australia exceeding AS/NZS 3809 Grade VII. Our doors can range in width from 900mm to 3m and in height from 2.1 to 4.6m.

FEATURES

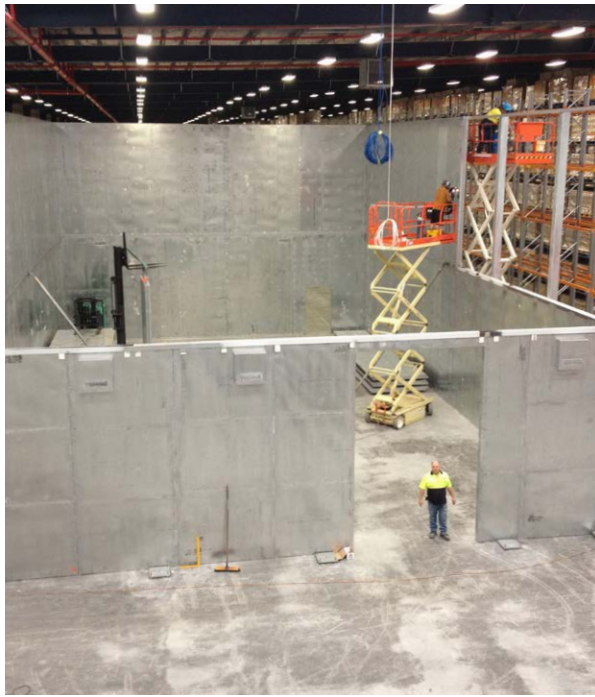

- Emergency inside release
- Emergency vault ventilator with pass through
- Acrylic Day Gate with key lock outside and lever inside (depending on size)
- Nonskid threshold
- Yoked combinations (only one lock needs to be unlocked to open the door while the second lock is an emergency lock)
- Black acrylic access doors cover internal mechanisms

OPTIONAL EXTRAS

- DEA daygate
- Digital locks
- In-door telephone
- Custom sizes
- Stainless steel or custom colour painted finish
